FOR IMMEDIATE RELEASE

KINETO COMPLETES PATENT LICENSING AGREEMENT WITH RESEARCH IN MOTION

Milpitas, Calif., December 9, 2008

Kineto Wireless, Inc., the key innovator and leading supplier of fixed-mobile convergence (FMC) solutions for mobile operators, announced today it has entered into a patent licensing agreement with Research In Motion.

“This agreement demonstrates Kineto’s commitment to facilitating continued widespread adoption of UMA/GAN technology in a way that encourages further innovation with 2G, 3G and LTE networks,” said Rick Gilbert, president and CEO of Kineto Wireless.

The 3GPP UMA/GAN standard enables mobile operators to extend voice, data and IMS services over fixed and mobile broadband access networks. Mobile operators around the world are offering dual-mode handset, femtocell, terminal adaptor and softmobile services based on the UMA/GAN standard.

About Kineto Wireless

Kineto Wireless is the key innovator and leading supplier of fixed-mobile convergence (FMC) solutions for mobile operators. Kineto supplies software solutions to major mobile infrastructure and device vendors that enable the development of products compliant with the 3GPP UMA/GAN and upcoming HNB standards, including UMA Network Controllers, Femto Gateways, dual-mode handsets, femtocells, terminal adaptors and softmobiles. Kineto customers and partners include NEC, Motorola, Samsung, LG Electronics, HTC, Qualcomm, Texas Instruments, Infineon, ST-NXP, Linksys, Ubiquisys, Netgear and Westell. For more information about Kineto, please visit <http://www.kineto.com>. For more information about FMC service deployments, products and standards, please visit www.UMAToday.com.
